

## Make your life easier & help your surgery by using Patient Access

With Patient Access, you can:

- Book your GP appointment
- Order your repeat prescriptions
- Change your address details
- View your medical record securely online

What's more, because Patient Access is a 24 hour online service you can do this in your own time, day or night.

AGE UK South Lakeland will be available in your surgery **TODAY** to help you set up My GP and Patient on-line access or resolve any problems you are having with the service.

If you have your own Smart Phone, or IPAD/Tablet we will help you understand what you need to do to get up and running with those services.

Alternatively, we will show you the services on one of our own IPAD/Tablets.

To take advantage of this **FREE** assistance please let Reception know you are interested.
