PHOTOVOICE: HOW DOES IT WORK?

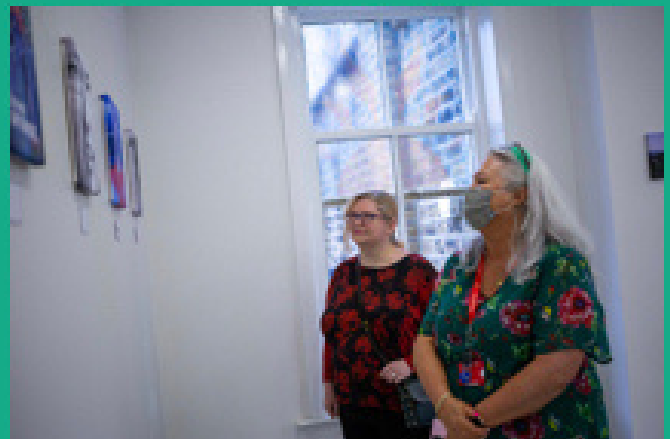

PHOTOGRAPHY
FOR SOCIAL CHANGE

Over the course of the project, we'll create a set of photographs using a digital camera (provided at the session - or feel free to bring your own!) to explore subjects that are important to you and your community.

It could be something you're passionate about, something that affects you, your community or something you want to celebrate.

Each week we'll discuss a different topic or theme and use photos to tell stories, reflect our thoughts, feelings and communicate ideas.

An exhibition will be held at the end of the project that showcases your images and raises awareness of your chosen subject.
